MARS GAMING

MM2 MOUSE

MM2 highlights for its powerful UI software, that allows total customization, with Macros and 5 different and independent profiles. And, due to its high speed *on-the-fly* 500/2000/3500/5000DPI level switch, also customizable, you get maximum accuracy.

Its optical gaming Avago sensor offers unprecedented 1000Hz polling rate, achieving the highest control during the game.

MM2 awesome design, with 4 backlight colors and breathing lighting effect, in addition to its rubber finishing, for perfect hand fitting and grip, its teflon feet, to ensure perfect glide, and its weight, specifically designed for gaming, will turn this mouse into the best choice in peripherals for professionals.
